Summary

Development finance and quantitative analytics professional with 10+ years of experience across the Inter-American Development Bank, International Labour Organization, World Bank, academia, and private-sector advisory. Expertise in project implementation, stakeholder engagement, economic and financial analysis, poverty and labor market analytics, and operational coordination in emerging markets. Proven experience working with governments, financial and private-sector stakeholders, and international organizations across Latin America and Sub-Saharan Africa. Strong quantitative background with advanced econometric, statistical, and data analysis skills using R, Stata, and Excel. Experienced in managing multi-stakeholder initiatives, monitoring project performance, and supporting evidence-based policy and operational decisions.

Professional Experience

Inter-American Development Bank (IDB) Brasilia, Brazil
Position: Consultant Oct/2026-Current
Responsibilities: Support the design, implementation, and monitoring of IDB lending operations and technical cooperations in the areas of social protection and labor markets, coordinating with federal counterparts including the Ministry of Social Development (MDS) and the Ministry of Labour (MTE).

International Labour Organization (ILO) Brasilia, Brazil
Position: Project Officer Oct/2024-Sep/2026
Responsibilities: Managed implementation and operational oversight of multi-stakeholder projects focused on labor standards, human rights due diligence, and living wage initiatives across agricultural supply chains.

World Bank Luanda, Angola
Position: Economist (ETC) Apr/2023-Jul/2024
Responsibilities: Served as the World Bank's primary in-country operational focal point in Angola for a statistical strengthening investment project supporting the national statistical office. Capacity building and multi-partner collaboration to enhance household data and national statistical systems, microsimulation analysis, and policy design for social assistance and cash transfer programs.

David Rockefeller Center for Latin American Studies, Harvard University Cambridge, USA
Position: Post-Doctoral Researcher Fellow Jun/2021-Apr/2023
Responsibilities: Conducted econometric and quantitative analysis of the pandemic's impact on labor earnings, unemployment and poverty in Brazil's labor market, using panel data from household surveys (PNADC, RAIS).

Anker Research Institute New York, USA
Position: Consultant Apr/2021-Apr/2023
Responsibilities: Performed poverty measurement and policy analysis by estimating poverty thresholds, living income and living wages using household consumption data for low- and middle-income countries in Africa, LAC and SE Asia.

Rede de Políticas Públicas & Sociedade São Paulo, Brazil
Position: Researcher Apr/2020-Apr/2021
Responsibilities: Development and analysis of emergency policies in response to the COVID-19 pandemic,
assessing their impact on labor markets and family earnings through technical reports.

Center for Metropolitan Studies São Paulo, Brazil
Position: Researcher Jul/2018-Jul/2021
Responsibilities: Conducted distributional and incidence analysis of public policies using econometric, statistical, and machine-learning methods to assess social protection, fiscal policy, poverty, and inequality.

Move Social São Paulo, Brazil
Position: Quantitative Researcher Apr/2016-Jun/2018
Responsibilities: Statistical analysis of primary and secondary data on social investments;
evaluation of social and environmental investments.

Fundação Getúlio Vargas São Paulo, Brazil
Position: Leader Researcher Sep/2014-Mar/2016
Responsibilities: main interviewer in semi-structured interviews, elaboration of project's main methodology and theoretical guidelines, and oversight of project's website and resources.

Instituto Democracia e Sustentabilidade São Paulo, Brazil
Position: Content Analyst Aug/2013-Mar/2014
Responsibilities: Directly involved in drafting and advocacy of sustainable foreign and domestic policies recommendations.

Santander Bank São Paulo, Brazil
Position: Intern Apr/2011-Dec/2011
Responsibilities: Supported sustainability compliance and ESG-related internal assessment processes for one of Latin America's largest financial institutions.
